

EUROPE FOR AVIATION

UNITED FOR A MORE SUSTAINABLE AND EFFICIENT EUROPEAN SKY

Nine European aviation partners collaborate to **modernise air traffic management** and **accelerate digitalisation** across Europe's skies. Together, we deliver an interoperable, safe, sustainable and future-ready ATM eco-system.

European Commission

Sets out the long-term vision for a digital, sustainable and interoperable European sky.

European Commission

Funds sustainable and innovative aviation projects.

European Climate, Infrastructure and Environment Executive Agency - CINEA

Advances highest standards of civil and military aviation and supports safe and efficient operations across the pan-European network.

TOGETHER, WE DELIVER:

- ▶ Digital and modernised ATM
- ▶ Interoperable European airspace
- ▶ Faster deployment of innovation
- ▶ Civil-military coordination
- ▶ Safe, sustainable and efficient operations

European Union Aviation Safety Agency

Keeps our skies safe, by ensuring certification and standardisation of ATM systems.

Develops recognised worldwide industry standards for aviation.

European Union Agency for the Space Programme

Provides secure satellite-based services for precise navigation.

JOINT UNDERTAKING

Drives research and development to deliver innovative and digital-ready ATM solutions.

DEPLOYMENT MANAGER

Turns innovation into reality by coordinating the synchronised deployment of new ATM solutions.

EUROPEAN DEFENCE AGENCY

Enhances air military mobility across Europe's skies, assuring interface and interoperability between civil and military.

By aligning policy, innovation, deployment, operations and funding sources, the **Europe for Aviation (E4A)** partners turn collaboration into real operational impact and benefits for passengers, economy and environment. Together, we shape a more modern and competitive European airspace.
